Eoptolink's 100G DWDM QSFP28 Optical Transceiver

eoptolink®

EOLQ-161HG-O-W2XX5S Series

Single-Mode, 100G QSFP28

With LC interface

Product Description

Eoptolink's single-wavelength 100G QSFP28 DWDM pluggable optical transceivers, enabled by the nCP4™ Silicon Photonics Optical Engine platform, are designed for multiple channel 100GbE transmission up to 100km distance over standard G.652 single mode optical fibers (SMF). For short distances, e.g. below 2 kilometers, dispersion compensation is not required. For relative longer distances, EDFA and DCM are required to compensate the fiber link loss and fiber dispersion.

The transmitter side converts 4x25.78 Gbps CAUI-4 electrical signals to a single lane PAM4 optical signal. The module's optical interface utilizes a single wavelength on ITU-T 100GHz spacing DWDM grid, and the signal is compatible with standard 100GHz spacing DWDM filters. The module is Laser Class 1 compliant according to International Safety Standard IEC-60825. The receiver section uses a wideband PIN-PD detector and is DWDM channel independent. Digital diagnostics functions are available via the I2C interface as specified by QSFP28 MSA specification SFF-8636.

Features

- Single-wavelength 100 Gbps transmission
- nCP4™ Silicon Photonics Optical Engine
- Fixed wavelengths on 100GHz DWDM grid
- Compatible with standard 100GHz DWDM filters
- Up to 100km over SMF (with DCM and EDFA)
- Duplex LC connector
- PAM4 optical signal with integrated FEC
- 4x25.78 Gbps CAUI-4 host interface
- Compliant with QSFP28 MSA SFF-8636
- QSFP28 MSA digital monitoring functions

Applications

- 100GbE signal DWDM transmission

Above table shows the 40 DWDM channels supported as standard products. Some wavelengths may have long lead times depending on the DWDM laser diode manufacturing plan.
Additional channels are available as customized products. For availability of additional wavelengths, please contact with Eoptolink.

Quality

Eoptolink Technology has passed many quality system verifications, established an internationally standardized quality assurance system and strictly implemented standardized management and control in the course of design, development, production, installation and service.
