

OE4055

# HI-Q YELLOW/GREEN LASER

The OE4055 yellow-green laser delivers ultra-narrow linewidth and low intensity noise to speed up development and improve results. Available from 530 nm to 560 nm.

## Specifications

**Common wavelengths:** 532 nm, 550 nm, 556 nm

**Spectral linewidth:** Sub-Hz to 10 Hz

**Thermal tuning range:**  $\leq 10$  GHz (Mode hop free)

**Monitor / control interface:** USB
