

CLIO

APPLICATIONS

Hair Removal

CLIO PLATFORM is the latest aesthetic laser device from Hyper photonics, providing power and control to hair removal treatment.

CLIO SOFTWARE allows normal procedure, with low frequency and high power, and S&F procedure for high speed and painless treatments.

S&F mode can reach up to 12Hz, reducing pain during treatment, maximizing confort, reducing minimal treatments needed and increasing patients satisfaction.

-
- Multimodal treatment
 - Portable
 - 5 Handpieces varyng wavelength and power.
 - New graphical user interface
 - Remote diagnostic
 - 360° Skin cooling tip
