

Chilas VT3 – 680 nm tunable laser

The ultra-narrow linewidth laser Chilas VT3 – 680 nm has a long tuning range of 20 nm.

Key features

- Ultra-narrow linewidth
- External cavity laser
- Proven long term stability
- Built-in TEC
- PM pigtail

Applications

- LiDAR
- Fiber sensing
- Gas sensing
- and many more

Optical specifications

Parameter	Specification
Fiber output power	> 3 mW
Wavelength tuning range	680 nm +/- 20 nm
SMSR	> 50 dB
