

NPO/CPO ELSFP & OE Connectivity

NPO and CPO are new solutions for next generation optical communication and will play a role in datacenter, AI, machine learning for its low power consumption and high performance. Linktel actively engages in the development of CPO/NPO products, participates in the discussion and formulation of related protocols. And we also has made contributions to solve new problems in the packaging field.

Keynote:

Complete supply chain including some strategic partners of key materials

Good cooperation with global customers to form a good development prospect

Key process developments ready for NPO/CPO

ELSFP samples ready for 3.2T application

Co-packaged optical-electrical Solution
